GDC announces SA-2100A digital cinema server deployment with EPIC Theatres

Burbank, California (March 24, 2009) – GDC Technology (“GDC”) has struck another deal in the U.S. market. This new contract with EPIC Theatres involves the deployment of 25 GDC SA-2100A series servers into its cinemas. EPIC Theatres is a privately held motion picture theatre circuit based in DeLand, Florida. Founded in 2003, EPIC Theatres is operated by third generation exhibitors whose family built its first theatre in 1947. It currently operates 39 screens, located at 6 sites, in 3 southern states in the U.S.

EPIC Theatres took a cautious and methodical approach in its digital conversion program. It began with the trial run of one single GDC SA-2100A server at the EPIC Multiplex in Deland, Florida. Having fully tested the server and satisfied with its performance, EPIC placed an initial order of 8 servers for a 50% digital multiplex in Clermont, Florida which was set to open in April 2009. This was followed by another order for their 100% fully digital 16-plex in St. Augustine, Florida.

“EPIC began small with a lone GDC SA-2100A server,” said EPIC Theatres Vice President, Clint DeMarsh. “It quickly became clear to us that the machine has most, if not all, of what we wanted for our theatres. We are impressed by the advanced functionality of the SA-2100A server and also GDC’s first-class customer service.”

“GDC is pleased to receive the acceptance from a meticulous exhibitor,” said Dr. Man-Nang CHONG, founder and CEO of GDC Technology. “We are glad to see repeat orders from EPIC within such a short span of time; such confidence in us is flattering.”

About GDC Technology (*website: <http://www.gdc-tech.com>*)

GDC Technology (“GDC”) is a subsidiary of the Hong Kong publicly listed company - Global Digital Creations Holdings Limited. As one of the leading global solution providers for digital cinema, media delivery and display markets, GDC has successfully delivered and installed digital cinema servers and advanced digital signage systems worldwide. GDC is currently the largest supplier of cinema servers throughout Asia and the second largest provider of cinema servers worldwide, serving its customers through offices in the US, Singapore, Hong Kong and China. GDC also holds Virtual Print Fee (“VPF”) agreements with major US studios and acts as a third-party for the major deployment of digital cinema systems in Asia.

About EPIC Theatres (*website: <http://www.epictheatres.com>*)

EPIC Theatres is a privately held motion picture theatre circuit based in DeLand, Florida. It currently operates 39 screens, located at 6 sites, in 3 states. EPIC Theatres has embarked on an expansion program and has announced the addition of 100 new stadium auditoriums at 6 sites over the next two years. Founded in 2003, EPIC Theatres is operated by third generation exhibitors whose family built its first theatre in 1947. The management and staff of EPIC Theatres are proud to be a part of the exhibition industry and are dedicated to providing the ultimate movie-going experience in state-of-the-art theatres.
